Challenge -

Eva thinks,

There are 10 different number bonds to 90 using multiples of 10

Amir thinks,

There are only 5

Who is correct?

Can you help the person who is wrong to understand their mistake?

Literacy - In Literacy we are learning about the story of Charlotte's Web.

For homework, do some research on spiders and write some facts about them.

Think about - different types of spiders, what they look like, where they live, how many legs they have, what they do and any other interesting facts.

You can present your facts as a fact file in your book or make a poster or leaflet.

Remember to include drawings or photos to make it more interesting.
