

History / geography term 6

1. Make a list of things that you will need to take on an expedition and explain what they are.	2. Draw a map of an expedition to the South Pole and label the countries you will pass and oceans you will travel across.	3. Draw and label the solar system.
4. Design and label a boat that Christopher Columbus might have used to travel to America.	5. Research and list foods and other items that have been brought back to Britain from other countries by explorers. Say who found it, where it was found and what it is used for.	6. Design and draw a flag that you would put on the moon or on your ship to represent you. Use ideas such as your name or initials, where you come from and what you are like.

Literacy:

Interview someone you know about their work. Find out what they do, where they work and what they do all day. Do they wear a uniform? Any other interesting facts?

Maths: Make your own 100 square.

Use the hundred square to:

- Count forwards from 80 to 92
- Count backwards from 73 to 65
- Write down the numbers between 75 and 81
- Find what number comes between 46 and 48
