

KENSINGTON PALACE

From: The Office of TRH The Prince and Princess of Wales

Private and Confidential

18th September, 2026

Dear Students,

The Prince of Wales would have me thank you for your kind letters in which you wrote so enthusiastically about protecting the rainforests.

It was encouraging to hear of your commitment to creating a positive change for the environment, and it was interesting to read your well-researched arguments on why deforestation is extremely harmful to the planet. His Royal Highness shares your concerns about the destruction of the rainforest and has spoken many times about the impact climate change is having on our world.

The Prince is passionate about environmental issues and established The Earthshot Prize to generate innovative new solutions to repair the planet over the next decade.

It was so thoughtful of you to take the trouble to write as you did, and your generous words of support for His Royal Highness were greatly appreciated. The Prince of Wales would have me send their very best wishes to everyone at your school.

Yours sincerely,

James Dawson
Head of Royal Correspondence

The Academy of Woodlands

Last year's year 4 children wrote to Prince William about the rainforest. We have had a reply from the Palace!
