## Statement of intent

This plan outlines how The Academy of Woodlands aims to increase access to education for pupils with disabilities in the three areas required by the planning duties in the Equality Act 2010 (i.e. the curriculum, physical environment and information).

A person is regarded as having a disability under the Equality Act where they have a physical or mental impairment that has a substantial and long-term adverse effect on their ability to carry out normal day-to-day activities.

This plan aims to:

- Increase the extent to which pupils with disabilities can participate in the curriculum.
- Improve the physical environment of the school to enable pupils with disabilities to take better advantage of education, benefits, facilities and services provided.
- Improve the availability of accessible information to pupils with disabilities.

The above aims will be delivered within a reasonable timeframe, and in ways which are determined after taking into account pupils' disabilities and the views of parents and pupils. In the preparation of an accessibility strategy, the LA will have regard to the need to allocate adequate resources in the implementation of this strategy.

The governing board also recognises its responsibilities towards employees with disabilities and will:

- Monitor recruitment procedures to ensure that individuals with disabilities are provided with equal opportunities.
- Provide appropriate support and provision for employees with disabilities to ensure that they can carry out their work effectively without barriers.
- Undertake reasonable adjustments to enable staff to access the workplace.

The plan will be resourced, implemented, reviewed and revised in consultation with:

- Pupils' parents.
- The headteacher and other relevant members of staff.
- Governors.
- External partners.

### 3. The Accessibility Audit

The governing board will undertake a 3 year Accessibility Audit. The audit will cover the following three areas:

- **Access to the curriculum** – the governing board will assess the extent to which pupils with disabilities can access the curriculum on an equal basis with their peers.
- **Access to the physical environment** – the governing board will assess the extent to which pupils with disabilities can access the physical environment on an equal basis with their peers.
- **Access to information** – the governing board will assess the extent to which pupils with disabilities can access information on an equal basis with their peers.

When conducting the audit, the governing board will consider all kinds of disabilities and impairments, including, but not limited to, the following:

- **Ambulatory disabilities** – this includes pupils who use a wheelchair or mobility aid
- **Dexterity disabilities** – this includes those whose everyday manual handling of objects and fixtures may be impaired
- **Visual disabilities** – this includes those with visual impairments and sensitivities
- **Auditory disabilities** – this includes those with hearing impairments and sensitivities
- **Comprehension** – this includes hidden disabilities, such as autism and dyslexia

The findings from the audit will be used to identify short-, medium- and long-term actions to address specific gaps and improve access.

All actions will be carried out in a reasonable timeframe, and after taking into account pupils' disabilities and the preferences of their parents.

The actions that will be undertaken are detailed in the following sections of this document.

This action plan sets out the aims of our accessibility plan in accordance with the Equality Act 2010.

1. Increase access to the curriculum for pupils with a disability:  
Our school offers a differentiated curriculum for all pupils.  
We use resources tailored to the needs of pupils who require support to access the curriculum.  
Curriculum resources include examples of people with disabilities.  
Curriculum progress is tracked for all pupils, including those with a disability.  
Targets are set effectively and are appropriate for pupils with additional needs. This can most clearly be seen in our Personal Independent Provision 'PIPs' classes and Centre classes. Where national benchmarks and targets are adapted for those pupils who struggle to access the national curriculum. The curriculum is reviewed regularly to ensure it meets the needs of all pupils.
2. Improve and maintain access to the physical environment:  
The environment is adapted to the needs of pupils as required.  
This includes:
  - Ramps

- Elevators
  - Corridor width
  - Disabled parking bays
  - Disabled toilets and changing facilities
  - Library shelves at wheelchair-accessible height
  - Low stimulus environments in targeted areas
  - OT support for pupils to maintain their mobility during the day.
3. Improve the delivery of information to pupils with a disability:  
Our school uses a range of communication methods to ensure information is accessible.  
This includes:
- Internal signage
  - Induction loops
  - Pictorial or symbolic representations (PECS)
  - Sign-along
  - Adapted materials for those with visual impairment where needed.

### **Monitoring and review**

This plan will be reviewed every 3 years to monitor the plan's effectiveness and ensure that it covers all areas of accessibility needed in the school. Any changes to this plan will be communicated to all staff members and relevant stakeholders.
